Accept and Install

Make sure that there is a tick in the box beside "Set Google Chrome as my default browser"

4. Left click on the blue "Accept and Install" button to start downloading the installer

A white box with blue border will appear at the bottom of the screen, showing the progress of the download. You may not catch all the text if the download is quick.

5. Left click on “Run” when the download has finished. This will start the next step of the installation process.

6. Left click on the yellow and blue shield icon that will appear at the bottom of the screen in the task bar. This will reveal a dialog box (small window).

7. Left click on “Yes” to allow the Google chrome Installer to make changes to the computer. These changes are required to install Google Chrome.

Google Chrome is now being downloaded to the computer.

Once the download is complete, the install process will begin automatically.

The screen may go blank for short periods during the installation.

8. Left click on the “Set as default” button

9. Left click on “Yes” to allow the Google chrome Installer to make changes to the computer. These changes are required to install Google Chrome.
